

CONTENTS

Review and Research Works

G. Barca	
Deformed Commutation Relations in Quantum Cosmology	1
A. Golovneev	
Is there any Trinity of Gravity?	15
J. Haro	
Gravitational reheating and bounds in oscillating backgrounds	33
T. Hübsch	
Ricci-Flat Mirror Hypersurfaces in Spaces of General Type	53
A. Miković	
Finiteness of piecewise flat quantum gravity with matter	101
B. Nikolić and D. Obrić	
Double space T-dualization of type II superstring with coordinate dependent RR field	121
D. Roumelioti, S. Stefas and G. Zoupanos	
Unification of Conformal and Fuzzy Gravities with Internal Interactions based on the $SO(10)$ GUT	133
List of participants	151
